

## News Release

### **Hydro-Shield Announces it's East Coast Headquarters**

**February 20, 2004**

**St. George, UT** – Hydro-Shield today announced the opening of its East Coast offices which will be the operational headquarters for the northeast and southeastern regions of the United States. The Southeastern Regional Headquarters will be based in Sarasota, FL and the Northeastern Regional HQ will be based in Islip, NY.

The company is also in the process of launching its new corporate identity including a new website that will provide its dealers and franchisees access to an elaborate database of information that will assist them in improving their operational efficiencies. Newly designed service and installation vans and uniforms for technicians are being implemented across the company to expand the company's brand throughout the entire United States.

Hydro-Shield is recognized as an innovative industry leader. Since 1995, Hydro-Shield Technologies, Inc. has aimed to be a leader in surface restoration and protection. Primarily focusing in protection of glass, tile, granite and porcelain.
